Suggestions for the trip

- The price of the taxis cannot be bigger at 25.00 CUC
- If the taxi driver asks: how many time in Cuba?, never to respond; first time.

To insist in the address of the house, because many time the they take to other houses, that are far from their destination alleging that he doesn't find the address or that they have a better price, but they are generally house that they are not officialised and would brings problems to the tourist.

Take the taxis in the door of the airport.

If in the airport they ask you: Where you go?, can they give the address of our house, but you have to come direct to house, of not being this way, would bring them problem with emigration in Cuba...

- To bring very slight clothes, because in this time there is a lot of heat.
- To copy the map of the place Web for a quick orientation.
- To bring a photocopy of the passport.
- All the services are paid in CUC
